2021 SCHOLARSHIP WINNER

"From the very beginning, Ariyan established himself as an integral member of our team. Ariyan always arrives to our sessions ready and eager to learn and has always exhibited a strong sense of curiosity and understanding towards all facets of design and engineering. In addition to his strengths as an individual, Ariyan is also a wonderful influence on, and team member to, his ACE peers."

2021 SCHOLARSHIP WINNER

"Her desire to see the work through despite no promise of formal recognition or accolades speaks volumes to 'her' tenacity, work ethic, and natural curiosity. She rapidly adapted to our virtual setting and seamlessly took on the more self-led work that it entailed. She often knew or had already begun the next step in the design process, before I even informed her."
