

THE PATHWAY TO ENERGY EFFICIENT BUILDING OPERATIONS.

The Fundamentals of Energy Efficient Building Operations is designed for individuals who are new to commercial building operations and energy management—as well as those in management and supervisory roles.

Participants will be introduced to foundational principles for optimizing building efficiency, the interdependencies of key building systems, and the basics of measuring and benchmarking energy performance. This class lays a foundation for individuals to pursue an advanced career pathway focused on energy efficient building operations.

CLASS SCHEDULE

All classes are scheduled from 9am to 4pm, at the Baltimore Convention Center, 1 W Pratt St., Baltimore, MD 21201.

DAY 1: AUGUST 19, 2024

- ◇ Energy Efficiency and Sustainability Overview
- ◇ Fundamentals of HVAC Systems

DAY 2: AUGUST 21, 2024

- ◇ Fundamentals of Efficient Lighting
- ◇ Energy Conservation Opportunities

DAY 3: AUGUST 22, 2024

- ◇ Indoor Environmental Quality
- ◇ Measuring and Benchmarking Energy Performance
- ◇ Putting it all Together

COURSE FEES

\$995* per person

*Training rebates may apply. Check with your local utility provider for Building Operator Training incentives that may cover up to **100%** of your registration fee.
